INVESTOR PRESENTATION & STRATEGIC OVERVIEW

Pure B2B Mortuary Cold Storage Infrastructure

Establishing South Africa's premier 400-bed high-capacity B2B cold storage network. Eliminating client conflict, securing recurring revenue and capturing key industrial corridors.

CAPITAL ASK

R4,500,000.00

STRUCTURE

Senior Secured Facility @ 18% p.a.

LEADERSHIP

Rebaone Dandashe & Kaya Jajula

EXECUTIVE SUMMARY

The Pure B2B Infrastructure Engine

Zero Client Competition

Strictly zero B2C retail operations. We do not sell caskets, policies, or family services. We serve independent funeral undertakers as trusted partners.

High-Capacity Infrastructure

400 stainless steel trays per facility. Maintained at a 65% utilization ratio (260 active beds) with a 35% emergency buffer for surge capacity.

High-Margin Recurring Unit Economics

R2,400 intake fee with R350 direct COGS yields an 85.42% gross margin (R2,050 gross profit per intake).

MARKET OPPORTUNITY

Solving Infrastructure Bottlenecks in Funeral Services

Capital Constraints

Independent undertakers lack CapEx for compliant cold rooms, forcing reliance on expensive, predatory sub-leases.

Regulatory Enforcement

Strict Department of Health CoC enforcement is shutting down non-compliant storage units across Gauteng.

The Neutral Solution

Jadan Holdings provides certified, neutral infrastructure where undertakers store client remains safely without poaching fears.

FUNDING ALLOCATION

R4.5M Upfront Setup & Working Capital Schedule

Category	Allocation
Leasehold & Facility Fit-out	R850,000.00
AfriChill Equipment Deposits	R550,000.00
Working Capital Buffer (M1–M5)	R1,600,000.00
Licensing, CoC & Compliance	R400,000.00
Unforeseen Contingency (24%)	R1,100,000.00
TOTAL CAPITAL REQUEST	**R4,500,000.00**

OPTION B DEBT TERMS

18.0% Fixed Rate

6-Month Grace Period (Months 1-5 principal moratorium during operational ramp-up).

DEBT SERVICE RUN-RATE

R224,658.46 / mo

24 equal installments (Months 6-29). Total repayment: R5,391,803.04.

SITE & INFRASTRUCTURE PROVISION

Flexible Property Provisioning & Utility Assurance

R160k

Monthly Rental Provision

Dedicated lease budget for 1,500m²+ GLA light industrial venue across Joburg North / Midrand corridors.

R112k

Monthly Utility Provision

Fully factored into base OpEx: Electricity (R75k), Potable Water (R19.3k), Trade Effluent (R17.7k).

5 Sites

Active Corridor Evaluation

Active property screening in Kya Sands, Corporate Park North/South, Lanseria, and Chartwell.

Plug-and-Play Site Standard

Every targeted site must feature 3-phase industrial power (min 150 kVA), dedicated sluice drainage access and secure drive-through loading bays for logistics vehicles.

EQUIPMENT PROCUREMENT

AfriChill Rent-to-Own Commercial Model

❄ Modular 400-Tray Setup

Grade 304 stainless steel trays, 100-bay 4-tier racking, 100mm PU insulation paneling (~250 m² floor space).

Tax-Efficient Leasing

R98,600.00 / month 60-month commercial lease-to-own agreement. 100% tax deductible under SARS OpEx.

Redundant Cooling Plants

Multiplexed commercial refrigeration plants ensure continuous 2°C to 4°C cooling during maintenance.

Auxiliary Preparation Facilities

- Mercurial hydraulic embalming & prep tables
- YSENMED motorized electric corpse lifters
- Heavy-duty sluice traps & biohazard drainage interceptors
- Commercial biohazard waste collection SLA

FINANCIAL FUNDAMENTALS

Core Unit Economics & Monthly Base OpEx

B2B Intake Fee

Standard per-body intake charge

Direct COGS

R350

Sanitation, shroud & direct consumables

Gross Profit Margin

85.4%

R2,050 gross profit generated per intake

Monthly Base Operating Expense Breakdown (Hub 1 Standalone)

Rent Provision: R160,000.00 / mo

Industrial Electricity: R75,000.00 / mo

Potable Water Supply: R19,290.00 / mo

Sewerage & Effluent: R17,700.00 / mo

Rates, Levies & Security: R22,000.00 / mo

Biohazard Disposal: R18,500.00 / mo

Facility Maintenance & Ins: R21,316.45 / mo

Direct Local Payroll (10 staff): R132,000.00 / mo

TOTAL BASE OPEX: R465,806.45 / mo

EXECUTION ROADMAP

Regulatory, Licensing & Compliance Process

PHASE 01

Lease & Layout

Sign lease agreement and submit architectural floor plans to City of Joburg Health.

PHASE 02

Public Notice

Publish statutory 21-day newspaper notice of intention to operate funeral facility.

PHASE 03

Fit-out Build

Install AfriChill cold rooms, biohazard sluice bays and effluent interceptor traps.

PHASE 04

CoC Inspection

Municipal Health inspection for Certificate of Competence issuance.

PHASE 05

Launch SLA

Finalize medical waste collection contract and initiate B2B intake operations.

STRATEGIC EVALUATION

Comprehensive SWOT Analysis

STRENGTHS

- **Pure B2B Model:** Zero retail competition with funeral parlours.
- **High Margin:** 85.4% gross profit per intake (R2,050 net margin).
- **Tax Efficiency:** AfriChill rent-to-own structure is 100% OpEx deductible.

WEAKNESSES

- **Capital Dependency:** Requires R4.5M upfront third-party capital setup.
- **Lease Transition:** Ongoing site screening requires lease execution.
- **Initial Ramp-up:** 5-month operational buffer needed before cash break-even.

OPPORTUNITIES

- **Undertaker Surge:** Capturing township undertakers lacking cold rooms.
- **Institutional Contracts:** Securing hospital removal & government SLAs.
- **Corridor Expansion:** Replicating Hub model across major provincial nodes.

THREATS

- **Grid Instability:** Load shedding risks (mitigated by backup generators).
- **Licensing Delays:** Municipal CoC approval delays (mitigated by pre-audit).
- **Water Outages:** Municipal supply interruptions (mitigated by water storage).

FINANCIAL PERFORMANCE

RISK GOVERNANCE

Comprehensive Risk Mitigation Framework

Premises Acquisition Risk

Mitigation: R160,000/mo provision allows immediate lease execution across 5 pre-screened Joburg North industrial parks upon funding approval.

Debt Service Protection

Mitigation: Month 6 EBITDA (+R216k) covers loan repayments immediately, scaling to >4.3× DSCR by Month 8.

Utility Continuity

Mitigation: 30,000 kWh electricity provision includes automatic switchover diesel backup generator + 10,000L water tanks.

Ramp-up Liquidity Shield

Mitigation: R1.6M working capital reserve covers 5 full months of operational OpEx prior to cash break-even.

INVESTMENT SUMMARY & NEXT STEPS

Partnering to Infrastructure Leadership

Jadan Holdings is positioned to capture high-margin infrastructure revenue in South Africa's mortuary sector. We invite senior debt and equity partners to participate in this funding round.
